

Ecoshel, Inc. Employment Opportunities

The positions listed below are currently available at Ecoshel, Inc.

To apply for a position go to the "Employment" page on the Ecoshel website, www.ecoshel.com, and apply online.

Ecoshel, Inc. is hiring for several positions at a new facility in Ashland, Maine. The company is also hiring for positions at the Sales and Marketing Office in Portland, ME.

Ecoshel provides competitive wages, and comprehensive benefits, including health insurance, and retirement plans.

Hiring for some of these positions will begin immediately.

Production Manager - Cedar Shingle System Fabrication Ashland, Maine

The Ecoshel Production Manager is in charge of all employees and production activities on a given shift, and also works on facilities construction projects, and performs minor repairs and maintenance on production line equipment.

The Production Manager is responsible for the daily operation of a unique, automated, advanced manufacturing system, and works with line leaders to coordinate production with orders, and achieve established production rates, while maintaining an exceptionally high level of quality.

The Production Manager will also be involved in employee hiring, reviews, assignments, and dismissals. The ability to promote a fast paced, positive work environment, and a strong sense of teamwork, is essential.

The candidate should have experience in a production environment, and be familiar with wood manufacturing equipment. The candidate should also have the ability to identify equipment problems and perform minor repairs and maintenance. Basic construction experience is required.

Salary based on experience.

Health Insurance, a retirement plan, and additional benefits are provided.

Production Line Leader - Cedar Shingle System Fabrication

Ashland, Maine

Ecoshel Line Leaders work in a Production Technician position, and also provide direction for their group. Line Leaders communicate with Production Managers to coordinate production with demand, and also manage production supplies.

Ecoshel Production Technicians work on one of three semi-automated production lines; shingle production, panel assembly, or finishing and printing.

Ecoshel is a manufacturing / fabrication facility, not a shingle mill. Most positions do not involve operating saws or heavy manual labor, but do require efficiency and precision. Candidates should be comfortable doing repetitive work at a steady pace, while maintaining the highest level of quality.

Production Line Leaders should have related work experience. Candidates must successfully complete a training program, and must demonstrate good work habits, and a desire to work with a team in a positive environment. Character references are required.

\$14 - \$16 / hour.

Health Insurance, a retirement plan, and additional benefits are provided.

Ecoshel Human Resources Coordinator

Ashland, Maine

The Human Resources Coordinator will be responsible for managing all personnel related issues, and will assume additional office manager responsibilities as needed.

The HR Coordinator will be actively involved in recruiting and maintaining the best possible workforce, and will work with local agencies to develop and implement hiring and training procedures. Additionally the HR Coordinator will manage all records related to employment, and will be responsible for the development and administration of employee benefits programs, including health insurance, retirement plans, education, wellness, etc.

The candidate should have some HR related experience, strong organizational skills, and an interest in promoting a positive and productive work environment.

Salary based on experience.

Health Insurance, a retirement plan, and additional benefits are provided.

Web Designer / Internet Marketing Specialist (IMS)

Portland, Maine

Ecoshel, Inc. is seeking an individual with comprehensive knowledge of search engine optimization rules and techniques, and with the ability to implement a strategy that will result in a prominent page one position for Ecoshel when relevant topics are searched.

The person in this key position should also have experience with web design software, and will be responsible for ongoing website development, including developing companion sites, and developing links to our dealers websites.

The IMS will also produce product installation videos, as well as animations and videos that illustrate the performance advantages of the Ecoshel product. The IMS will be responsible for strategic placement of product videos on the company's websites, as well as on companion sites, dealer sites, industry publication sites, relevant blogs, YouTube, etc.

The candidate should be an articulate, technically oriented person with significant creative experience in graphic design and media arts.

Salary based on experience.

Health Insurance, a retirement plan, and additional benefits are provided.
